

## Eagle Stadium

Wyndham City's Eagle Stadium is the largest indoor recreation facility in Melbourne's West. The \$47 million complex features; 1,500 seat show court, 12 indoor multi-purpose courts, 4 outdoor netball courts, state-of-the-art gym, dedicated group fitness and spin class rooms. METRA Australia recently completed the design and installation of high-quality lockers and our specialised electronic locking system with RFID access.

## 1. About Eagle Stadium

Eagle Stadium features very functional and modern facilities, with our team taking into consideration a sporting approach toward the change-room environment. Our solution offers maximised space and the change-rooms have special facilities for the very youngest members of the family.

High-Pressure Laminate (HPL) lockers were installed, considered to be one of the most durable decorative surface materials and is available with special performance properties including chemical, fire and wear resistant. Eagle Stadium customers are sure to enjoy a reliable and modern system that will stand the test of time.

At Eagle Stadium, the newest version of Electronic Locking System (ELS) with integrated RFID readers on the change room locker doors has been installed, to make the members experience seamless in every possible way, beginning with the changing room.

Around 260 locks are being controlled by the impressive METRA Electronic Locking System (ELS Net). With members RFID wristbands used as the locker key.

For gym users Links Locker Kiosk software is running on a 10" touch screen, and offers the user (casual and members) a choice of which locker to use.

#### How it works:

- The assigned locker unlocks and opens.
- The user stores their personal belongings in the locker.
- The locker locks automatically when the door is closed.
- To unlock their personal locker, the user needs only to select their locker, and input their PIN that they would setup in the hire process.
- Once the PIN has been accepted the user selects if they want to keep using the locker or to free it for another user.
- After the selection is made, the locker unlocks and opens.
